TWISTMAS

This festive finger fumble is inspired by classic game Twister — but it's only for hands!

You will need two standard six-sided dice and one hand per player.

How to play

The aim of the game is to be the last player with your hand on the grid. Set up the game by placing this card on a flat surface. The youngest player goes first. Up to four people can play at once, depending on hand size...

1. Roll the dice, using the hand you are not going to place on this card. It's important to choose beforehand which dice is the "hand" and which is the "bauble". If the two dice are identical, you could roll one first.

2. Shout out the result, using the two columns below.

3. All players move their fingers to match the result. Remember that as well as colours, there are also hearts and stars!

If players touch the card with anything other than the tips of their fingers, they're out and must remove their hand from the card. The last player still in wins the game!

Thumb

Pointing finger

Middle/long finger

Ring finger
